Finding a certified contractor to help with roof services isn't difficult, but you do want to choose the right candidate for the job. These contractors can help with jobs such as roof construction and repair, installation of roof shingles including asphalt shingles, roof cleaning and gutter services.

You may want to consider roof replacement if your roof is 15 - 20 years old. Small leaks can be patched, and interior leaking can come from small weather areas of the roof, or from around skylights or chimneys, and does not necessarily mean that your roof needs to be replaced.

The best way to keep your roof in good shape, whether it be a metal, flat, slate, or tile roof, is to stay off of it. Also, roof cleaning should be a regular occurrence. This includes gutter cleaning and getting debris out of roof valleys. Here are some good tips when choosing a contractor:

- Only consider licensed contractors. [Service Magic](#) only provides licensed professional contractors.
- Get at least three bids.
- Don't let payments get ahead of the work.
- Don't make final payment until you're satisfied with the job.
- Don't rush into repairs or be pressured into making an immediate decision
